Mr. Douglas Scott, Co-Chairman
Mr. Arthur Henson, Financial Chairman
Steering Committee for the

Teach-In on the Environment
Mr. David Allan, Co-Chairman
Mr. Douglas Scott, Co-Chairman
Steering Committee for the
University of Michigan Teach-In

on the Environment
School of Natural Resources

Gentlemen:

Your group deserves commendation for stimulating student, faculty, and community concern about environmental conditions. The concept of a Teach-In on the Environment to promote wider understanding and knowledge is a positive approach, and has my personal support.

To initiate the financial support for the Teach-In, I am making \$5,000 available from the Michigan Alumni Fund - President's Fund. The University's Development Office also has been asked to assist you in seeking support for the program from interested individuals and groups.

I wish you well in an endeavor that is socially useful and which, if successful, can serve as an example to the large community as well as reflect credit upon you and the University.

I assume this can be discussed as the program develops.

Sincerely,

I am very interested in your project, and I wish you good luck in carrying it out.

R. W. Fleming
